

AGHAST VIEW

drifter

this new EP features an addictive EBM club floor number... "drifter"! it has 5 very different mixes on here, one of them by the EBM masters - FUNKER VOGT! This track combines ferocious dance floor power, with melodic, and catchy vocals. The remixes feature alot of interesting arrangement and instrumentation as well. The synthwork in this band is always top notch, and this one just keeps that tradition going.

a few more Aghast View remixes on there including a heavy bass, deep trance remix, and a very smooth, and awesome 2nd new track "Ascentic". 6 tracks / 37 minutes... the new album is being worked on, and if this is an early indicator of what its gonna be like... we will be scorching the electronic new world with this new cd!

** We also need to help Denis of AGHAST VIEW in moving some AGHAST VIEW "phaseknox" t-shirts while he is in the USA... so if you are interested in one of the very last remaining stocks of this nicely designed AGHAST VIEW t-shirt then e-mail me here, or better yet e-mail... denis@aghashtview.cx, thanks for your attention!
