The fourth album from electronic artists Cruciform Injection, Epilogue steps beyond Industrial dance music and enters a soundscape of analog basslines, layered vocals, and driving beats. All ten original songs were constructed during 2003, and selected from over 30 songs. New perspectives on sequencing provided by Brendon7 and Kassi. Production assistance from Oliver Tarancweski of Evils Toy. T.O.Y. and Re/act, helps polish the album. Final mastering by Guido Fricke of Haujobb completes the electronic sound.
