MANNEQUIN DEPRESSIVES

"Trash-Eighty"

The electronic roots of post-punk Europe are proudly displayed on "Trash-Eighty," the debut release from the Canadian-based underground electro outfit, **MANNEQUIN DEPRESSIVES**.

Since their conception in 1999, MD has created a project that puts a modern spin on the classic new-wave aesthetic, by combining elements of synthpop, electronica, art-rock, and industrial. The results of this unique combination can be heard on the group's debut album, "Trash-Eighty."

TRACKS:

- Trash-Eighty**
- Headspace**
- Autofire**
- No Fun**
- And It Belongs To You**
- Break**
- Images**
- The Sunday Song**
- Cyberdelic**
- Portal**
- What Happened?**
- Reach**
- Untitled**
- Electronic Tonalities**

Although MD is mainly an electronic act, they do perform live, and have enjoyed several minor underground club hits. In addition, they have received significant college radio air-play. This album features many favourites from their live shows and early EPs, including the high energy club tracks, "Cyberdelic" and "Reach."

This is the first album to be released by **MANNEQUIN DEPRESSIVES**, and is a diary of the band from its conception in 1999 to now. It is also the first official release by the new Calgary-based record label, **KLANKBOOM PRODUCTIONS**.

Not just for industrial fans or electro-purists, "Trash-Eighty" assaults your senses with a unique combination of abstract sonic experiments and well-crafted, addictive melodies. Whether it's the aggression of "Autofire," to the synthpop shadings of "Reach," or the surreal strangeness of "Portal," honesty and enthusiasm for the electronic sound fuels each energetic track.
