11. Simalabim
12. Kunstmutter (Vertonter Surrealismus)
13. Der Mann An Der Drehorgel
14. You're The Greatest Lover

Massiv in Mensch is one of the new breed of electronic artists seamlessly blending techno, industrial, and punk with their latest hard-hitting assault on the dancefloors! Menschdefekt is easily their most sophisticated work to date, a blend of their first two releases, and an extension of their Uturn material. Fans will be pleasantly surprised by the new slew of stompers: "Vokuhila", "Dark Rave", and "Radius 17. M" are ready to attack.

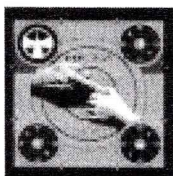

Ranked as one of the top new artists when their debut was released in 2000, the German-based group has been growing steadily ever since and has built up a large fan-following. With Menschdefekt, Massiv in Mensch will undoubtedly capture the hearts and dancefloors of a larger fanbase and easily solidify their status as the top dark rave act in the world.

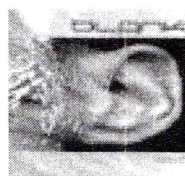

Marketing Plus!
